

<b>Glitter pocket card – Project Checklist</b>		
<b>Activity</b>	<b>Tick Box</b>	<b>Steps</b>
Preparing designs.		<p>Choose designs.            Choose three fold card.            Cut two identical sized pieces of acetate, wider than aperture.            Tape design under acetate.            Trace with OHP pen.            Dry with hairdryer.</p>
Painting.		<p>Turn to wrong side to paint.            Mix paint if required.            Load brush and paint between the lines.            Leave to dry.</p>
Making pocket.		<p>Tape edges of unpainted acetate with double sided tape.            Place on copy paper.            Shake glitter into middle.            Remove backing tape.            Check pocket is secure on all edges.</p>
Making up card.		<p>Decide if you want painted side on top, or outlined side.            Place dry design on top.            Spread UHU glue around back of aperture            Bring glued aperture down on top of painted pocket.            Turn card to wrong sided and press in place.            Glue four edges of left hand side of card.            Fold over and pinch to set.</p>
